Script: Testing Bitcoin Riddles

Version 7.2

Yuhao Zhang

March 14, 2019

`#lang bs`   package: `bs`

Script or (Bitcoin Script) is a language used by Bitcoin's scripting system.

Some opcodes needs meta data from transactions in order to operate, like

`OP_CHECKSIG`

and

`OP_MULTICHECKSIG`

, etc. These opcodes are not supported by current version of `bs`.
